

JOB POSTING

Canyon Highway District No. 4 is accepting applications for the position of Survey/Engineer Technician.

DUTIES: The Survey/Engineer Technician supports District engineering staff in project design and construction, right-of-way management, and development. Performs topographical surveys for District projects using GPS or Total Station with data collector, makes associated computations, and processes survey data. Performs construction staking, prepares staking notes, and works closely with District construction personnel. Research rights-of-ways, survey control data, and prepares associated legal descriptions. Import/export electronic survey data to/from CADD system; drafts base maps and construction drawings for projects, develops surface models, and coordinates utility location information. Assist in developing roadway, bridge, and drainage designs, including preparing horizontal alignments and profiles. Conducts inspections and reports of roadway, drainage, and related improvements associated with development and right-of-way work.

MINIMUM QUALIFICATIONS: Four years of topographic surveying, construction staking, and design and drafting (CADD) of roadway, drainage, and related features or any equivalent combination of experience and training which provides the required knowledge, skills, and abilities.

Applications and a complete position description are available at <https://www.canyonhd4.org/resources/forms-and-maps/> or between 8:00 a.m. and 4:30 p.m., Monday through Friday at the Canyon Highway District office, 15435 Hwy 44, Caldwell, Idaho, located at Hwy 44 and I-84 Exit #25 or by contacting the Highway District at (208) 454-8135.

This position will remain open until filled.
